THE TRADE REVIEW BY DUN & COMPANY

DEALINGS IN WHEAT THE FEATURE OF THE WEEK.

Business to a Great Extent Is Waiting for the Election—Many Conditional Contracts Have Been Made—Failures for the Week Show an Increase.

New York, Oct. 24.—R. G. Dun & Co.'s weekly review of trade says:

"The event of the week has been the sensational advance of wheat to 83 cents for cash on Tuesday (a rise of 5½ cents), its fall to 77 cents on Thursday, and gain of 1⅝ cents on Friday. The rise was magnified by the covering of speculative sellers, who imagined the advance had gone too far, but was at the bottom based on an extraordinary foreign demand, which has engaged grain vessels from all the Pacific, as well as the Atlantic, ports for months ahead. How great the shortage in ordinary European supplies may be is the point of doubt and speculation, but none now questions that the shipments from the Pacific coast to India and the decrease in the Russian yield are important, and the buying of enormous quantities for export, with engagements of freight room at higher rates, expresses the belief of European dealers.

"Wheat exports from the Pacific coast are large, and over 500,000 bushels per day has been engaged ahead for some time. The Atlantic exports, about 900,000 bushels larger than last year for the week, have been in October, 6,570,213 bushels, flour included, against 5,086,388 last year. It is worthy of note that Western roads are complaining of a car famine, the demand for movement to market being so great, though the actual receipts for three weeks at Western ports have been 21,193,716 bushels, against 23,061,514 last year, following a much increased movement in the quarter ending with September.

"Corn moves largely and at lower prices, having declined 1 cent for the week.

"Cotton has advanced a sixteenth to 8 cents, with only moderate transactions, and heavy receipts from plantations. Estimates of yield vary all the way from Mr. Neill's 9,000,000 bales to much less than 8,000,000, but the impression grows that the yield will be large.

"The most striking feature of the industrial returns is the number of contracts conditioned upon the election. These already are enough to make business lively for a time, and many others are pending that will probably be held back until Nov. 1.

"The buying of Bessemer pig at Pittsburg causes a slight advance, and all markets are strong for pig, but not for finished products. Low prices are made for a speedy delivery by mills wanting work. The tone of the market is better, and a decided increase of orders appears in plates, about 3,000 tons for building vessels on the lakes, and in structural work at the west, owing to contracts taken at Chicago for buildings at Boston, Toronto, Detroit, and Minneapolis. There is also a great demand expected for cars, and the association offers to sell iron until Nov. 6 to jobbers and large buyers at $1.05, while steel bars are selling largely at 1 cent. A reduction in nails is expected. The rail season is over, and the billet pool has little business.

"A sale of about 5,000,000 pounds was made of lake copper at 10½ cents to domestic consumers. Tin is a shade higher at 12.80 cents.

"The failures for the week have been 274 in the United States, against 231 last year, and 60 in Canada, against 38 last year."

Withdraws $1,300,000 in Gold.

New York, Oct. 24.—The speculative equilibrium in Wall street was disturbed in the late afternoon Friday by the announcement that Laidlaw & Co., an influential banking house, acting as agents for the bank of California, had withdrawn from the subtreasury, $1,300,000 in gold, in exchange for greenbacks. This, being the first substantial withdrawal since the termination of the gold-export movement, created a decidedly unfavorable impression on the part of the traders, and stocks reacted all along the line.

Vrooman May Remain.

Chicago, Oct. 24.—Despite the verdict of the presbyterian synod of Illinois, the Rev. Frank Buffington Vrooman may still continue to preach from the pulpit of the Kenwood church if he so desires. It is not likely the church will withdraw from allegiance to the Chicago presbytery, but as it is empowered to engage a "supply" until it calls a pastor it may retain Mr. Vrooman. It is said that Mr. Vrooman has anncunced his intention to appeal from the findings of the synod to the general assembly.

Tin Plate Mills Will Start Up.

St. Louis, Mo., Oct. 24.—It is announced that the Niedringhaus Stamping and Tin Plate mills, which have been shut down during the past four months, will resume operations Monday. Thomas K. Niedringhaus said the mills would employ 2,000 men.

CHARLES F. CRISP DEAD.

Ex-Speaker of the National House Is No More.

Atlanta, Ga., Oct. 24. — Charles F. Crisp, ex-speaker of the House of representatives, died here Friday afternoon. The end came at a quarter to 2 o'clock.

Mr. Crisp had been an inmate of a sanitarium in this city for several

CHARLES F. CRISP.

weeks. His condition had been reported as low, but no fatal conclusions to his illness had been expected so soon. When a rumor got abroad several days ago that he was sinking it was denied at the sanitarium, where it was given out that he was getting better.

Mr. Crisp had he lived, would have been the next senator from Georgia.

Honors befitting the high stations Mr. Crisp has occupied in the state and the nation will undoubtedly be paid his memory by the general assembly, which meets next Wednesday.

Mr. Bryan Sends Condolence.

Peoria, Ill., Oct. 24.—William J. Bryan was shown the dispatch announcing the death of Charles F. Crisp when he boarded the train at Springfield, and he expressed himself as greatly surprised and deeply grieved at the death of Mr. Crisp. Mr. Bryan immediately sent a dispatch of condolence to Mrs. Crisp, sympathizing with her in her distress.

VICTIM OF A PLOT.

New York Authorities Still at Work on the Andrus Case.

New York, Oct. 24.—Hamlin J. Andrus, who was murdered in his office at Yonkers with a bomb fired by means of an elaborate electric arrangement, was the victim of an anarchist plot. The police accuse nobody yet, but they are investigating three men. Among other developments was a demonstration that the dead man had the bomb in his hand when it exploded, which might seem to bear out Captain Mangin's first theory of the case, suicide. It is possible that when Andrus came to the office he noticed the odd cylinder in so strange a place and stooped down and took it in his hand to examine it. If the explosion took place at that moment it would account for all the conditions.

Dislike Dr. Harper's Views.

Champaign, Ill., Oct. 24.—The Illinois Baptist association has adjourned its annual meeting in Urbana, after sitting four days. The feature of the closing session was a long and heated discussion of a resolution to indorse and recommend the divinity school of the University of Chicago. There was strong opposition to it on account of dissatisfaction on the part of some of the preachers with the theology of President Harper. The resolution was defeated by a vote of 72 to 22. H. P. Glissold, Chicago, was elected moderator.

Bookkeeper Commits Murder.

Kansas City, Mo., Oct. 24.—Morris Landa, manager of the International Export and Grain company and prominent in the local grain market, was shot and killed in his office at the Stock Exchange building Friday evening by Fred H. Waitt, a bookkeeper, whom he had discharged, and whom he attempted to put out of the room. Waitt had been drinking.

Ready to Come to Terms.

Washington, Oct. 24.—It is stated authoritatively that the proposals Sir Julian Pauncefote is authorized by the British foreign office to present to the state department embrace both the Venezuelan boundary question and the question of a general treaty between Great Britain and the United States whereby all future disputes will be submitted to arbitration.

China Will Not Abandon Silver.

Cincinnati, O., Oct. 24.—The statement from Washington to the effect that Li Hung Chang, while here, had told Secretary Carlisle that China was to be placed on a gold basis was repeated to the secretary at the home of Mr. Frank P. Helm, in Covington, and he was asked about the matter. Mr. Carlisle at once said the statement was untrue.

Plenty of Gold in Alaska.

Washington, Oct. 24.—James Sheakley, governor of Alaska, in his annual report to the secretary of the interior, says: "There is greaf encouragement in the outlook for the Alaskan gold mines. During the year ending the first of this month, $2,300,000 in gold bullion has been taken from the mines, the greater part being the product of low grade ores, much of which yielded less than $4 per ton.

THE RAILROAD MEN CALL ON M'KINLEY; BRYAN STILL SEARCHES FOR HEARERS

MAJOR M'KINLEY ADDRESSES SANTA FE EMPLOYES.

Delegations From Topeka and Other Kansas Cities Visit Canton—Illinois Ex-Governors Continue Their Tour Through the State—General News of Good Money Cause.

Canton, O., Oct. 24.—Kansas came smilingly into Canton Friday several hundred strong. Employes of the Santa Fe railroad company and others made one of the most enthusiastic delegations that has yet visited Canton. Some of the party were two days on the road. They were headed by President H. B. Morris of the Emporia Railway Men's "Sound Money" club. The singular crowd of the day was the party of poor supervisors of Pennsylvania, who came to Canton from Pittsburg, where they were in convention. Armstrong county, Pennsylvania, was represented by several thousand people. Other delegations here were from Newcastle, Ind., and Van Wert, O. Major McKinley made short addresses to each delegation.

Some weeks ago a woman from Springfield, Mass., visited Mrs. McKinley and requested the latter to make a pair of crocheted slippers for a church fair. The request was granted, and the slippers were sent. Word has been received that the slippers were put up at auction and the proceeds were $107.

CROWDS GREET THE GOVERNORS.

Enthusiastic Meetings at Macomb, Monmouth and Bushnell.

Macomb, Ill., Oct. 24.—The governors were greeted here by a crowd of 15,000. The speakers were listened to with the closest attention. The gold parade in the forenoon was the largest demonstration of the kind ever witnessed here. The torch-light parade at night had about 2,000 men in line.

Monmouth, Ill., Oct. 24.—Friday was the republican day of the campaign here. Delegations were present from all of the surrounding towns. In the evening a reception was given to the ex-governors. Fully 3,000 people assembled at the depot, and the "squadron" were greeted with a display of fireworks.

Bushnell, Ill., Oct. 24.—The governors arived about one hour late Friday afternoon. John C. Smith and Lyman B. Ray made short speeches eulogizing John R. Tanner. Tanner was repeatedly called for, and had only fairly begun his speech when the train pulled out.

Cheers for Ex-Gov. Flower.

Burlington, Iowa, Oct. 24.—The gold democrats of Burlington and vicinity had their innings last night. Ex-Governor Roswell P. Fowler was the chief attraction, and a crowd of people that severely taxed the seating capacity of the big opera house and clamored on the outside made things lively for him.

Speaker Reed in Missouri.

Springfield, Mo., Oct. 24.—The republicans of Green county held a big rally here Friday afternoon and night. Thomas B. Reed, of Maine, who spoke to as many people as could crowd into the Baldwin theater, was the main attraction. He was enthusiastically received.

NERVE PREVENTS A LYNCHING.

Georgia Sheriff Saves His Prisoner's Life by Defying a Mob.

Athens, Ga., Oct. 24.—The coolness of the sheriff and his posse saved the life of John Spratling, a negro imprisoned here for some time on the charge of attempted assault upon Mrs. Clarence Maxey, a white woman of Oconee county. Spratling escaped from jail Thursday, but was captured after a long chase. The sheriff and his posse of seven men were bringing him back to Athens when they were halted by a mob of between thirty and forty men, who ordered them to give up their charge. The sheriff looked coolly into the rifles of the men who made the demand and said simply: "I'll be d—d if we do," and, closing around the negro, he and his men spurred straight into the mob, which parted and gave way to them, and then brought the prisoner here in safety.

Colored Desperado's Deed.

Chicago, Oct. 24.—Robert Embry, colored, made a desperate attempt to end three lives in a house at 43 North Sangamon street about 7:30 o'clock last night. He first shot his wife in the breast and ear, and then turned the pistol upon Mrs. Amanda Miller, whom he wounded in the shoulder. Leaving the house where the deed was committed, he fired a shot at his own head, the bullet nearly tearing away the jaw. The three wounded people were taken to the county hospital, where the four bullets were extracted. All are expected to live. The police give Embry a bad reputation.

To Receive Kate Field's Remains.

San Francisco, Oct. 24.—The Woman's Press association has arranged to receive with just honors the body of Kate Field when it arrives in this city from Hawaii on its way to the east. A committee has been appointed to make the necessary preparations. The body will be taken to the mortuary chapel at Trinity church, which will be abundantly decorated with flowers, where a service will be held.

BOY POPOCRAT IS TOURING ILLINOIS.

Peoria, Springfield, Decatur, and Other Cities Turn Out Crowds to Listen to and Applaud the Democratic Nominee—General News of Cheap Money Cause.

Peoria, Ill., Oct. 24.—The greatest reception of the day was accorded Mr. Bryan when he arrived in Peoria Friday evening. Three meetings were held, one in the tabernacle, which holds 8,000 people, another in historic Rouse's hall to an audience of 2,000 made up exclusively of trade union men, and a third in the open air in the court-house square. It was near 11 o'clock before Mr. Bryan finished his work, and he retired at once to his car.

The capital city of the state of Illinois welcomed the democratic nominee with a magnificent reception. The city was gayly decorated in honor of his coming and excursions from outlying towns helped to swell the crowds to such an extent that their proportions were immense. Mr. Bryan delivered two speeches to Springfield, one at the court house and the other from in front of the state capitol.

There was a stop of five minutes at Petersburg, and one of fifteen minutes at Havana.

Danville was the first stop of the morning, and from a stand near the court house Mr. Bryan spoke to an assemblage which numbered up in the thousands. A twenty minutes' stop was made at Paris. Charleston and Sullivan were also visited. At Mattoon there was the largest crowd of the morning. A cheering crowd welcomed Mr. Bryan to Decatur. When the train pulled in a great crowd surrounded the car and it was with difficulty that Mr. Bryan reached the conveyance which was to take him to the place of speaking.

The regular train bearing Mr. Bryan was taken out of Peoria at 11:30 last night and this morning at 4 o'clock it arrived in Ottawa. The party left that place at 8:30 and visit during the day LaSalle, Spring Valley, Kewanee, Rock Island, Moline, Monmouth, Bushnell, Macomb and Quincy, and late to-night will pull out of the latter place for Jacksonville, where Mr. Bryan will spend Sunday.

Tammany Indorses Altgeld.

New York, Oct. 24.—Rain fell in torrents last night and in a measure dampened the ardor of the Tammany braves who were to have made a great demonstration. Nevertheless, there was a crowd which filled the hall. John B. Goldrick read a set of resolutions offered by John C. Sheehan, reiterating the pledges of Tammany hall to Bryan and Sewall, and urging members to redouble their efforts to carry the state. The speeches were all for free silver and denounced trusts. The names of Hill and Whitney were both loudly hissed. Resolutions on the death of ex-Speaker Crisp were read and passed unanimously. Highly complimentary allusions to Gov. Altgeld were made.

Watson Off the Ticket in Georgia.

Atlanta, Ga., Oct. 24.—Tom Watson is no longer a candidate for vice president here in Georgia. The populist state committee has taken down the Bryan and Watson electors. The committee took formal action in this respect last night. It is believed that as a result of the withdrawal of the populist electors, Mr. Watson will withdraw from the race for vice president.

Free-Silver Men in Missouri.

Gallatin, Mo., Oct. 24.—Senator Cockrell, Gov. Norman J. Coleman, John Dorridy, A. M. Dockery and Ed. E. Yates addressed large audiences here Friday. Fully 20,000 persons came from this and adjoining counties. There was a street parade at 10 o'clock of more than three miles in length.

Will Meet at Indianapolis.

Springfield, Ill., Oct. 24.—The closing session of the forty-eighth annual national convention of the Christian Woman's Board of Missions, American Christian Missionary Society and the Foreign Christian Missionary society, was held in the house of representatives Friday in the shape of a union meeting. The attendance was very large and the interest manifested in the closing proceedings was great. The final address was delivered by Homer T. Wilson of New York, his topic being "Love—The Secret of Missions." Routine business closed the session, and the convention adjourned to meet at Indianapolis in October, 1897.

Marcus A. Smith Not Removed.

Washington, Oct. 24.—Attorney General Harmon, when seen in regard to the reported removal of Marcus A. Smith, assistant United States attorney for Arizona and the free silver candidate for congressional delegate, said he had not taken such action. He had been notified, he said, by the district attorney of Mr. Smith's candidacy, and with the notification came a request for the appointment of another man. Mr. Harmon said he had written to Arizona for further information and he would base his action on the response to his queries.

ALTON TRAIN ROBBED.

Bandits Hold Up an Express in Blue Springs Cut, Mo.

Kansas City, Mo., Oct. 24.—A passenger and express train on the Chicago & Alton railroad, due here from Chicago and St. Louis at 7 o'clock, was held up and robbed by four masked men Friday evening at Blue Springs cut, between Independence and Glendale, Mo.

The scene of the robbery is less than twenty miles distant from Kansas City. The train was flagged at the entrance to the cut. While two of the robbers stood guard over the pessenger coaches, the other two covered the conductor, engineer and fireman with their pistols and compelled them to go to the express car. There the robbers commanded the messenger to open the door of the car, threatening to break in the doors should he refuse. After some delay the robbers were admitted to the express car. They compelled the messenger to open the safe and extracted from it several packages. How much booty was secured cannot be ascertained at this hour.

While the bandits were demanding admission the express messenger quickly opened the safe, took out the money packages and tossed them into the chicken coop. When he finally admitted the robbers to the car and opened the safe for them the strong box contained but two or three packets of jewelry. Even at the point of the robbers' pistols and Winchesters the messenger insisted that he had carried no currency.

Taking up the little booty at hand, the outlaws uncoupled the express car from the coach following it, and then marched their prisoners forward to the locomotive, where they compelled them to sit down on the bank alongside the track. The leader climbed into the cab, tried the air and the steam, and then called to the men who were back guarding the passenger coaches to come forward. They ran the locomotive several miles to within a mile of Independence, where they abandoned it.

It was two hours before the robbery became known. The passengers on the train did not know what had caused the delay.

As soon as a party of trainmen could walk to Independence the alarm was sent out. A deputy sheriff and posse left Independence at about 9 o'clock and about the same time a squad of policemen was detailed from here, and left for the scene of the robbery on a special train. It is thought, however, that the robbers are now safely out of the way.

So far as can be learned, the robbers secured only the packets of jewelry and $25 in currency which the fieman had left in his vest, hanging in the cab. There have been three hold-ups in Blue cut. The James gang held up a train there in 1881.

Nation's Flower Is Columbine.

Asheville, N. C., Oct. 24.—The national flowers congress has adjourned. It was evidently the sense of the body that the columbine is the flower most suited to be the national emblem, but as the delegates were from the eastern and southern portion of the country, almost entirely, it was deemed inexpedient to recommend a flower to congres at this time. This decision was reached after a lengthy discussion on a resolution offered by one of the delegates.

Oppose the Poll Tax.

Constantinople, Oct. 24.—The irades issued in connection with the recent purchases of arms have resulted in a condition of affairs which is regarded as being very grave. The ministers are opposed to the poll tax imposed on the Mussulmans, but the palace officials insisted that the measure was necessary for the defense of the Mussulman religion on the ground that the Christians are preparing to attack the Mussulmans and that the European press is preaching a crusade against Islam.

Lynching Threatened in Indiana.

Seymour, Ind., Oct. 24.—Peter Laws, a colored man 40 years old, was arrested late Thursday night on the charge of assaulting a white child named Hazel Stevens. Laws protests he is innocent. Judge Hoover remanded him to the county jail. The news of the arrest soon spread and crowds of excited men crowded the courtroom and surrounded the jail. Threats of lynching are freely made.

Metal Workers' Convention.

Cincinnati, O., Oct. 24.—The third annual conference of the Federated Metal Trades of America has begun a two days' session here. The federation is considering plans for more closely concentrating the workers of the allied metals and is hearing statements from the different national organizations in the alliance.

Entire Family Killed.

Dresden, Oct. 24.—A newspaper and magazine writer named Eulenberg killed his wife, his three children, and himself at Blacewitz, near this city, by putting poison in their food. Eulenberg had become despondent and desperate through his increasing impoverishment and failure to obtain employment.

Manitoba's Wheat Yield.

Winnipeg, Man., Oct. 24.—The government has revised its estimate of the wheat yield of Manitoba, reducing the amount to something less than 15,000,000 bushels. The acreage under wheat was a little short of 1,000,000 acres. This does not include wheat of the northwest territories.

THE FAMILY FLED IN NIGHT CLOTHES

NARROW ESCAPE OF DEPERE PEOPLE TODAY.

Workmen Arroused the Inmates of a Flaming Residence In Time For Them to Make Their Escape—Barns Burn at Reedsburg—Other State Specials.

Depere, Wis., Oct. 24—[Special]—The resicence of Cornelius Artz was burned to the ground early this morning and but for discovery by workmen the family would probably have perished in the flames. They barely escaped in their night robes. The loss is $2,000.

Reedsburg, Wis., Oct. 24—[Special]—All the barns and the house on Thomas Faits' farm burned this morning and a number of horses and cattle were roasted. The loss is $3,000.

Spoke for Sound Money.

Neenah, Wis., Oct. 23—M. G. Jeffris of Janesville, delivered a sound money address to a large audience at Princess Rink this evening.

Bryan to Invade Wisconsin.

Milwaukee, Wis., Oct. 24.—Bryan is to make another tour of Wisconsin. He will spend next Friday in the state and will deliver a number of speeches from the rear of a special train, which is to take him over the Northwestern road. He will go to Green Bay from Chicago Thursday night and begin his speaking early Friday morning at that point. Stops will be made at the following places to enable him to address the people: Depere, Kaukauna, Appleton, Neenah, Menasha, Oshkosh, Fond du Lac, Juneau, Watertown, Jefferson, Fort Atkinson, Milton Junction, Janesville, and Madison.

Plan to Dishonor Rambusch.

Juneau, Wis., Oct. 24.—A telegram was received yesterday that the body of Rambusch had been shipped from Fredericksburg, Va. A report which caused some excitement was that certain men were arranging to get hold of the body when it arrived here, and prevent its burial before it had been strung up on a tree in the court-house yard. This talk was met with the reply that any such attempt would be resisted by arms if necessary. The remains are expected to arrive some time to-day or Sunday, and they will probably be taken direct from the train to the grave.

HIS FRIENDS ARE ANGRY.

Indignity Offered to Secretary Carlisle Has Stirred Up Gold Democrats.

Cincinnati, O., Oct. 24.—Secretary Carlisle found himself the center of widesperad attention yesterday in consequence of the indignity offered him during his speech Thursday night in Odd Fellows' hall in Covington. At length Mr. Carlisle was obliged to deny himself to callers to enable him to get the rest he needed and to attend to his correspondence. Speaking of the occurrence, the secretary said he regarded it more than an accidental occurrence. In his opinion, it was an organized mob.

Louisville, Ky., Oct. 24.—Mr. Carlisle will speak here next Wednesday, and yesterday the following telegram was sent him: "You will have such complete protection against insult, and so grand an ovation, when you come to Louisville as will forever wipe out the attempt of last night to destroy free speech, dishonor the fair name of Kentucky and to discredit her foremost citizen."

This afternono Mr. Carlisle speaks at Bowling Green and John S. Rhea, silver candidate for congress, will demand a division of time, which will be refused. In this event the silver men propose to hold a meeting at the door of the opera house where the secretary speaks. This, it is feared, will cause serious trouble.

FOR CO-OPERATION.

English Concern Reaching Out for Business in the Antipodes.

San Francisco, Cal., Oct. 24.—Ben Jones of London, Joseph Clay of Gloucester, and William Stoker of Newcastle have arrived from the antipodes on the steamer Monowai. They are representatives of the Manchester Co-operative society, an institution which is doing business with a capital of £7,000,000 and which has big stores and agencies scattered throughout the United Kingdom. The society is organized for the purpose of affording the poor and middle classes an opportunity of purchasing supplies and the necessaries of life direct from the producers, growers and manufacturers. The representatives now here say they have been in New Zealand and Australia to see if it would be practicable and feasible to organize branch agencies in those colonies. They say it is highly probable the society will engage in the business of handling refrigerator meats from the Australian colonies.

Rankin Aspires to the Senate.

Indianapolis, Ind., Oct. 24.—There is some excitement in free silver circles here over the authoritative announcement that M. C. Rankin, a well-known populist of Terre Haute, will be a candidate for the United States senate in the event the fusionists control the legislature. It has been conceded that Senator Voorhees would not be a candidate for re-election, and it was supposed that Governor Matthews had a sure field in the event of party success.

GENERAL DOE FLOPS BACK TO SILVER

MIGHTY WARRIOR TURNS HIS COAT AGAIN.

After Denouncing the Popocrats In Unmeasured Terms, and Bolting Bryan et. al; He Returns Like the Dog, Etc—Janesville Expected Roster Roosters to Flock Again

The "roster roosters" are getting together again—as birds of a feather always will.

General J. B. Doe has joined the flock after staying out as long as he could.

The warrior whose name is such a terror to Koshkonong mud hens and Hanover musk rats, does not believe "in firing into his own people from the rear."

He does not believe in free silver, but will support Bryan. He doesn't like the declaration of the Chicago platform in regard to the administration—but will support Bryan. He doesn't like anything about the platform—but will support Bryan. His convictions do not make any great difference—he will support Bryan.

This is what a great many Janesville people said they expected "the general" to do.

They had no idea that he would stand by his first declaration.

Even his own paper—the Flip-Flop—said The Gazette ought to be sent to Mendota because it "said a good word for him." In this case the Flip-Flop seemed to know its business.

At all events the roster roosters—good democrats do not own them—have met again, this time in the silver fold. The fact will cause friends of good government no particular surprise. This is what General Doe has to say:

Gen. Doe's Letter.

"War Department, Office of the Assistant Secretary, Washington, D. C., October 21, 1896.—Hon. E. C. Wall, Milwaukee, Wis.—Dear Sir:—Your favor of the 13th inst., received. In reply to your question in reference to my political views permit me to say that while I cannot accept the Chicago platform as a correct declaration of democratic principles, do not favor the free and unlimited coinage of silver at the ratio of 16 to 1 by our government alone, and greatly deplore the attitude of the convention towards the national administration, yet as you well know I have been a life-long democrat and have never been inclined to bolt. I am strongly attached to the democratic organization, and believe our party to be the party of the people, the defender of personal liberty and true constitutional government. I can find no comfort in the St. Louis platform or its candidates, and I detest all that is implied by the term McKinleyism.

"I do not believe an honest or earnest effort will be made by the next administration, should it be republican, to enact legislation in the interests of the masses of the people in reference to matters wherein those interests may be opposed to the interests of the favored classes.

"It is claimed by the Democratic party has arrayed the 'masses against the classes,' while the truth is that republican legislation long ago arrayed the classes against the masses.

I am not in favor of attempting to correct mistakes or misbehavior among our forces by going over to the enemy or firing into our own people from the rear.

Silver Better Than Uncertainty.

The great need of the country is that some definite determination should be arrived at as to the character of our measure of value, and I do not believe the election of Mr. McKinley would permanently settle the financial questions now before the people. Republican success would simply prolong the struggle and continue our present unsatisfactory condition.

"The election of Mr. Bryan would definately settle the financial question, and at least enable investors to calculate as to the future. Some commercial disturbances may follow the adoption of a silver basis, but I do not believe that universal wreck and chaos would follow as is predicted by those who advocate the election of Mr. McKinley.

"No man who will seriously argue or publicly state as Mr. McKinley has done that the "foreigner pays the tax," and "that protection prevents the formation of trusts," is of the proper mental caliber to be the chief executive of this nation, and I have, in common with others, struggled too long and too hard for a tariff for revenue only to willingly surrender the administration of the government and to those who are openly opposed to that principle.

Protection.

"The St. Louis platform calls for protection, that the dignity of American labor may be upheld, while it is well known that the lowest wages are paid in protected industries. It claims that protection causes thrift, as though economy could be compelled by law. It advocates protection in order that the standard of wages for American workmen may be maintained, while the truth is that the tariff, protective or otherwise, has nothing whatever to do with the question of wages, and the coal and iron barons, with the other beneficiaries of protection, always have hired and always will hire the cheapest men they can find. This platform promises specifically, 'the most ample protection' to hemp, wool, woolens, and 'all our products.' It promises aid to the American merchant marine, which after thirty years of the fostering care of republicanism, has been almost entirely swept from the seas.

"The principal candidate nominated upon this platform is not dangerous in his own personality, but the agencies behind him menace the welfare of the republic. The millionaires who rescued him from financial difficulties and made his nomination possible, will demand a proper return for their services and labors which can only be made at the expense of the rest of our people. His reluctance, almost refusal, to mention, let alone, to condemn the trusts, is corroborative of these assertions.

"Moreover, I am in favor of a government by the people, the only rulers recognized by democracy, and opposed to government by trusts, combines and monopolies, which apparently control the policies if not the legislation of the republican party.

"I am, therefore, in favor of the election of, and shall support, so far as I am able, the regular democratic ticket. Very respectfully yours,"

JOSEPH B. DOE.

THE BLACKHAWK CLUB ELECTION

New Officers are Elected by the Lake Koshkonong Shooting Organization.

At the annual meeting of the Black Hawk Shooting club, A. J. Gaston was re-elected president and C. A. Still secretary and treasurer; F. McLane, Fond du Lac, vice president in the place of J. Doolittle, who declined to take that office for another year. The club report themselves well pleased with the addition and other improvements made about the place the past year. They voted to retain the present steward and his wife and raise their present salary one hundred dollars. They also thank Mrs. Wentworth for the good moral reputation the club had attained through the eighteen years of her management.

TOPICS OF SUNDAY SERMONS

ALL SOULS, the People's Church—Pastor Victor E. Southworth. Morning lecture at 10:30. Subject, "Why I Believe in the Divinity of the Man Jesus." This lecture is repeated by special request, A great many people have the utterly erroneous idea that liberals have no regard for Jesus. NO MORE CONTAGION UP AT EDGERTON

DIPHTHERIA IS PRACTICALLY WIPED OUT.

Schools and Churches to Open and Public Meetings Will Be Held Again as Usual After Monday—Other News Gathered From About the County.

The indications are that all danger from the spread of diphtheria at Edgerton is now over. No new cases have been reported during the past week and those afflicted with the disease have recovered. The strict measures adopted by the authorities to stamp out the contagion have succeeded, and it is believed that the city is now free from further trouble on this score. The public schools will reopen on Monday and church service and public meetings will be resumed again. The disease was at no time so alarming as the reports that have been spread around would seem to indicate. But the utmost precaution has been taken in stamping out the disease and it is a matter of congratulation that they have so easily succeeded.

THE PAST WEEK AT CLINTON

News and Notes of Various Kinds From That Place

Clinton, Oct. 23—The Houston & Hill Furniture Company of Beloit, have opened up a first class furniture store in the Gates building. They also carry a fine line of undertaking goods. A. E. TOWN OF PLYMOUTH PIONEER DEAD

T. Bertness Passes Away—Change In Church Boundary—Orfordville News.

Orfordville, Oct. 23—Truman Bertness, one of the oldest settlers of the town of Plymouth, died at his home near Hanover on Thursday. Mr. Bertness had been a great sufferer. Physicians pronounce the disease cancer of the stomach. Since the M. E. conference at Stevens' Point the boundary of the Orfordville charge has been changed, Plymouth having been added to it. This makes the work Orfordville and Plymouth and restores the charge to its original boundary, and is highly satisfactory to both points. Who the pastor will be is not yet known. An invitation has been extended to Rev. H. C. Siedel, who supplied Orfordville and Magnolia last year. Rev. O. J. Kvale, who has been confined to the house by illness, is able to resume his pastorial duties again. Presiding Elder Pease will preach at the M. E. church next Sunday morning and evening and at Plymouth in the afternoon. A mid-day republican rally will be held at the opera house, in this village, on Monday afternoon. Hon. J. G. Monahan will address the meeting. Mr. Monahan is considered one of the best speakers in the state. An enthusiastic meeting will doubtless be the result. H. O. Wee transacted business at Rockford, on the twenty-second. Section Foreman Lackner has a large force of extra men at work laying new steel on his section. The recent cold snap made the citizens think seriously of winter fuel. As a result, T. O. Brown, manager of Brittingham & Hixon's lumber yard, has been hustling delivering coal, the price delivered being $7.80 per ton. Miss Strand Smith, an evangelist, will conduct services at the Baptist church, Sunday afternoon and evening. Mrs. Charles Taylor is visiting in Janesville. Rev. F. Howarth preached at Clinton, at the Methodist church, last Sunday morning. His discourse was very much enjoyed by those present. Many local republicans availed themselves of an opportunity to hear Congressman Cooper at Brodhead, on the 14th. "Cooper is all right," was the verdict. Rev. Thomas Potter, of Allen Grove, shook hands with his old parishioners at Orford, Wednesday and Thursday. Nels Thorson, the butcher, has purchased a lot of Ole Skogen, near the west end of town, and will move his shop onto it. Mr. Thorson has no thought of going out of the meat business. Another barber shop in the village; Ed. Hoover, proprietor.

ROBERT MANTELL IN "MONBARS."

Great Actor Charmed a Janesville Audience Last Night.

Robert Mantell charmed a Janesville audience last night, in his presentation of "Monbars." Enthusiastic curtain calls were given Mr. and Mrs. Mantell, and their work received the warmest praise. The supporting company was excellent. The play is a masterpiece, the rich plebian asking the hand of the pauper noble's daughter, whom he has but rescued from a mad dog, conveys not the least offensive suggestion of indebtedness, and at the same time preserves the dignity of true manhood which does not bend to blood, the newly made husband, almost a boy again through his joy, is dignified in in his gleeful happiness, the mis-mated man recognizing the unintentional mistake of the woman now his wife, and its nobler side, bears up with the true spirit of chivalry under a terrible misfortune. Noble and respectful sympathy with affliction, charity for inadvertent error, passionate denunciation and vindication, tenderness in forgiveness, noble sorrow for wrong prompted by jealousy, and unalloyed relief at an unclouded prospect. Mantell is perfect in such portrayal.

Mr. Mantell only played three Wisconsin cities—Milwaukee, Racine and Janesville—and Bower City people appreciate Manager Stoddart's enterprise in securing so high class attraction.

CONCERNING C. E. JONES' NAME

It Was on a List Purporting To Be Furnished by the League.

The Beloit Free Press has the following:

The Beloit News states that C. E. Jones says that the statement of the Janesville Gazette that he has pledged himself to the Personal Liberty League to vote for the repeal of all the Sunday laws on the statute books, in case he is elected, is "infamously false." The denial is respectfully referred to the Janesville Gazette for its consideration.

The Gazette got the information from an article in the Milwaukee Sentinel, which purported to be a statement from the Personal Liberty League managers, giving the names of all the candidates in the state from whom favorable replies to circulars sent out had been received. In many cases the replies were of some length, giving the signers' reasons for opposing the Sunday laws. The name of C. E. Jones, candidate for assemblyman on the popocratic ticket appeared in the list of assemblyman.

Perhaps the League does not know who answered its circulars—and then again, perhaps it does.

The tobacco market has again lapsed into very quiet methods says The Edgerton Reporter. Very little riding has been done during the week and but few sales recorded. NO SHOW FOR WINANS TO WIN

Edgerton Reporter Talks About the Assembly Fight in the District.

Edgerton Reporter—There is some talk at Janesville over the legality of ex-Congressman John Winans serving as elector-at-large while running for the assembly on the fusion ticket. If by any chance the popocratic ticket should be elected he could hardly serve in both capacities. But what is the use talking about such a remote possibility.

CHAIRMAN USHER'S APPEAL IS OUT

Asks All Democrats to Stand By the National Ticket.

The silver democrats of Wisconsin are greatly concerned over the action of Chairman E. B. Usher, of the national democratic state committee in issuing and mailing a circular letter to every voter in the state urging him to stand by the ancient faith of the democratic party and vote for Palmer and Buckner. Chairman Usher's letter is as follows:

Milwaukee, Wis., Oct. 10, 1896. Dear Sir—Election day is only three weeks off. The result in this state is now practically assured. Bryan cannot carry Wisconsin. A great many democrats declared early for McKinley. Among this number were many men of political and business prominence in the democratic party. Many of these men were glad of the opportunity offered by the convention of the national democratic party at Indianapolis to support a truly democratic ticket. Others still adhere to their determination to vote the republican ticket.

The time has arrived to ask such men if they are republicans, and if they are not, to ask them if they can afford to help wreck the democratic party. Men who are democrats and who believe that Palmer and Buckner represent true democratic principles cannot afford, either by advice or example, to lead their fellow citizens into the republican party.

The failure of Palmer and Buckner to poll a large vote will be a national calamity, because it will be a calamity to the democratic party. It will leave no political antagonists in this country except the adherents of McKinleyism or Bryanism. If sound money democrats desire to avert this calamity they must vote and act openly for Palmer and Buckner.

In Wisconsin we must cast nearly 9,600 votes for Palmer and Buckner electors in order to procure our title to have a national ticket on the official ballot two years hence. We must cast two per cent of the total vote polled for this purpose. All democrats must bear in mind also the danger of being indifferent to this matter. If leading men show indifference, their sincerity will be open to question. If the voters doubt the sincerity of the Palmer and Buckner leaders it will result in a dangerous reaction before election day.

I call these matters to your attention to urge you to exert your influence actively and openly in support of the national democratic ticket. Do all you can to secure open and vigorous support for Palmer and Buckner, if you do not wish to justify the Bryan charge that this is "merely a McKinley sideshow."

If you are a democrat, vote the only democratic ticket. Very truly yours,
ELLIS B. USHER, Chairman.

E. BURTON HOLMES MAY LECTURE

Plans to Secure Him Are Now Being Discussed.

An effort is being made to have E. Burton Holmes deliver his celebrated lecture in Janesville the coming season. His French is in many respects the equal of Stoddard and in some respects his superior. It will be quite a distinction to have Janesville obtain a place on the circuit, and now is the time to secure it. No higher class of lectures are being delivered in this country and the illustrations are of the finest. Does Janesville want them?

GIRLS IN STORES,

offices, or factories, are peculiarly liable to female diseases, especially those who are constantly on their feet. Often they are unable to perform their duties, their suffering is so intense.

When the first symptoms present themselves, such as backache, pains in groins, headache, dizziness, faintness, swelled feet, blues, etc., they should at once write Mrs. Pinkham, at Lynn, Mass., stating symptoms; she will tell them exactly what to do, and in the meantime they will find prompt relief in Lydia E. Pinkham's Vegetable Compound, which can be obtained from any druggist.

"MY DEAR MRS. PINKHAM:—I am so grateful to you for what your Compound has done for me. For four years I suffered such pains from ovarian trouble, which caused dreadful weakness of the limbs, tenderness and burning pain in the groins, pain when standing or walking, and increased pain during menstruation, headache and leucorrhœa. I weighed only 92 pounds, and was advised to use your Vegetable Compound, which I did. I felt the benefit before I had taken all of one bottle. I continued using it, and it has entirely cured me. I have not been troubled with leucorrhœa for months, and now I weigh 115 pounds."

With the . . . Changing . . . . Season

A change in Hats and Bonnet is necessary. It's a tax on the pocket book, and the patience also, to select just the right style of headgear at a price you are willing to pay—unless you come here—then it's plain sailing. You will have no reason to find fault, either with styles or prices. The success of all previous seasons will be repeated again this fall in ihis department, only that it will be greater than ever before. Come today, today, tomorrow, or any day this week, and take a peep at some of our choice patterns. Even if you are not ready to buy, we shall not object to letting you admire, and covet them, to your "heart's content."

Not an . . . . Accident

Goodness in Cloaks doesn't happen. If a garment is first-class it's because somebody made it so. Of course accidents will happen, but somehow or other we seem to have no accidents, for our Cloaks all come up to expectations. We show splendid values at $5, $7½, $10 and $13½, and 'tis wise to look into our department before deciding. * * Misses and Children are looked after with a large showing of the nobby Jackets, in sizes 8 to 16 years, and the moderate prices we name makes it easy to fit out the girls; ask us about this line if interested.

We sell Dry Goods cheaper than any store in the State.

A motto for working men and women: 'A dollar's worth of dollar for a dollar's worth of work."

THIS DAY IN HISTORY.

ADMIRAL QUEEN

1648—The peace of Westphalia ended the dreadful Thirty Years' war.

1820—Florida ceded to the United States by Spain.

1838—Joseph Lancaster, celebrated teacher and originator of the Lancastrian system of education, died at New York; born in London. Professor Lancaster was a member of the Society of Friends. He opened a school at the age of 20 and made a successful experiment in mutual instruction. Under the patronage of noblemen he wrote and lectured, giving a decided impulse to education in England and other countries. He came to the United States in 1818 and continued the work until his death.

1852—Daniel Webster, American orator and statesman, died at Marshfield, Mass.; born 1782.

1854—Affair at Balaklava, in the Crimea, made famous by the charge of the Light brigade.

1893—Rear Admiral Walter W. Queen, U. S. N., retired, died in Washington; born 1824.

1895—Ex-United States Senator Charles H. Van Wyck of Nebraska died in Washington; born 1824.

GENERAL DOE AND BRYAN.

General Doe will support Bryan and Sewall, but even devotion to "regularity" will not permit him to endorse free coinage. In fact, his letter in favor of Bryan is about as strong an anti-Bryan argument as could be offered.

General Doe concedes that for men to take to the mint half a dollar's worth of silver and get the government to stamp it a dollar, legal tender for all debts, would be fraud. He cannot endorse this fraud, he says, but he will seek to make the fraud possible, for party regularity's sake.

The mass of honest-minded men will reject his argument as misleading and trivial.

It is true that many men who would prefer not to cheat personally, will vote for permitting some men to cheet others, and for making the United States a swindler among nations, on the ground that Bryan was nominated regularly. Of men with General Doe's discernment, however, more is expected. In the face of his own acknowledgment that a Bryan vote means a vote for undemocratic principles and for legalizing public and private swindling his plea for Bryan finds no possible defense.

A SOLID COLUMN.

The farmers know a good thing when they see it, and are not slow to avail themselves of it, when it comes within their reach. They know that the rise in the price of wheat is an augury of returning prosperity, and that with the restoration of the protective system, and with William McKinley to administer the affairs of the nation, thrift and contentment will once more attend and crown their industry. The sentiment is beginning to prevail even in the so-called silver states, and echoed from the south and the northwest, and the Pacific coast, is now heard ringing through the middle west, where the great victory is to be won.

Republican prospects are brightening every day and hour. The moral reserve power of the people is being awakened, and popular government is to receive another vindication before the civilized world.

The whole popocratic campaign has been built upon the idea that the people were fools and would accept promises of future wealth made by men who as a rule have been failures in their own undertakings. That is why it is already a failure. The people of this country are not fools. They know that something for nothing is seldom honestly acquired, and knowing that they will never support a candidate whose sole stock in trade consists of promises of something for nothing.

The letter purporting to make Thomas Garfield of Michigan, a brother of the late President Garfield, declare for Bryan and free silver was like so much of the popocratic campaign literature—a lying fraud. Mr. Garfield is a republican and will vote for McKinley and Hobart, and for the republican state and congressional tickets.

If the owners of the great Anaconda mine have contributed $300,000 to the free silver campaign fund as reports declare, it is doubtless with the expectation of getting it all back with an extra $300,000 by way of premium in case free coinage wins.

Bryan has told Minnesota that Debs is all right, and Debs has told Minnesota that Bryan is all right. Meanwhile Minnesota wants it understood that she is all right, and has been from the first.

Senator Morrill said: "Free coinage of silver as a remedy against Japanese or any cheap foreign labor would prove to be very much like taking refuge in a pest house to avoid a plague."

Whenever any political party sets out to make times better by increasing the cost of living, it is in order for the workingman to keep his eyes open.

John R. McLean seems to belong to the same school of politics as the Virginian who once publicly said: "Honor will not buy a breakfast."

"We do not want a cheap dollar any more than we want cheap men. We no more want free silver than we want free trade."—William McKinley.

Tom Watson would be justified in trading his vice presidential ambition for a yellow dog, and then in shooting the dog.

Tom Watson can turn his I-told-you-so apparatus on the popocrats after election.

CAN'T HIDE AWAY UNDER GOLD FLAG

SILVERITE CANDIDATES MUST KEEP BY THEMSELVES.

The County Clerks Not Allowed to Put Local Candidates of One Faction Under the National Ticket of Another—How Chairman Usher's Scheme Worked.

In Rock county as in every part of the state the Bryan men have failed signally in their attempt to get their county tickets on the official ballot under the gold democratic heading. The failure to get any benefit from the populist endorsement of their congressional candidate is only one of the disappointments suffered by the silverites. They have awakened to the fact that Chairman Usher knows his business.

Usher has been digging a pit for the silverites but saying nothing about it.

There was a great deal of talk just prior to the time for making the official ballot, about the manner in which the gold democrats would get their ticket on the official ballot, and by the majority of people it was supposed they would have it placed there by petition.

Chairman Usher, it now transpires, was perfectly willing that the opinion should stand, and, as if to bear out the truth of the statement, petitions were circulated all over the state with the ostensible intention of securing the 1,000 names necessary to get the ticket on the ballot. At times the Bryan men did a great deal of crowing over the alleged fact that the gold democrats could not get the names required. Chairman Usher said nothing. Like Br'er Fox, "he lay low."

The Rule in Force

When the time came for making up the ballot, just at the last moment allowed, Captain Webb, secretary of the state central committee, went out to Madison with the names of the electors of the national democratic party, and they were placed on the official ballot by Secretary of State Casson, under the provision of the election laws which says that whenever there is a division in any party, and one wing starts in business for itself, the nominees of that party shall be placed on the official ballot on its being shown that they are nominated by a division of the old party and that the latter has taken a distinctive name. The ticket therefore was placed on the ballot just as any ticket of the old parties was placed there, and not by petition.

Gold Votes Count For Gold.

Not only was the electorial ticket put on the ticket in that manner, but in every instance where the gold democrats have made nominations in the state the convention making the nomination has pursued the same course as outlined in the state convention. It is therefore impossible to slip a silver county ticket under a gold democratic national ticket and a cross at the head of the gold democratic column does not boost any silver candidate.

Oh! General Joseph Bodwell Dough,
You're such an able man, we knough,
And being great in war—and blough,
Thou art a power; yea, even sough.

The working man will get no sheugh,
The farmer now will cease to mough,
And to the bow wows we will gough,
Oh! General Joseph Bodwell Dough!

MAHONEY CAN'T RUN AS A POPULIST

NOMINATION PAPERS WERE FILED TOO LATE.

Secretary of State Casson Holds That His Name Cannot Now Be Placed On the Ticket as the Candidate of that Party—The Legal Opinion.

The populists of the First district are without a nominee for congress.

J. L. Mahoney of this city, the democratic nominee, was also nominated by the populists, but he did not get the certificate of the later nomination in within the twenty days before election as specified by law, and Secretary Casson held his name could not be placed on the ballot as a populist nominee.

Mr. Mahoney then endeavored to have his name placed on the ballot under the head of populist nominations, on the ground that he was nominated to fill a vacancy. The matter was referred to the attorney general's department. The opinion written by Asst. Atty. Gen. Erdall, is as follows:

You request the official opinion of this office in relation to the following question: A person nominated by a political party in this state for the office of member of congress files his certificate of nomination nineteen days before the day fixed by law for the election, and you refuse to file the certificate on the ground that it has not been filed in time. He then sends on a certificate of nomination signed by the chairman and secretary of the congressional committee of the district, which certifies that the first certificate filed by the nominee has become inoperative by reason of not having been filed in time, and that a vacancy has thereby been caused, and that said congressional committee has nominated the person referred to to fill such vacancy.

You inquire whether the facts set forth in the certificate of the chairman and secretary of the congressional committee referred to constitute a vacancy within the meaning of section 24 of chapter 288 of the laws of 1892.

The requirement that certificates of nominations for offices to be voted for in any district embracing more than one county shall be filed with the secretary of state not more than forty days nor less than twenty days before the day fixed by law for the election, contained in section 22 of chapter 288 aforesaid, is mandatory and the secretary of state is in duty bound to refuse to file a certificate presented to him less than twenty days before the election. This proposition has been decided in a recent case in the state of New York, viz: In the matter of the application of William H. Cudebach, etc., 3 Appellate division reports of the Supreme Court page 103.

Moreover, the facts stated by you do not, it seems to us, constitute a vacancy within the meaning of said section 24 of chapter 288, so as to authorize you to file the certificate of nomination certified by the chairman and secretary of the congressional committee. Said section 24 expressly applies to a case where the vacancy has been caused by the declination made in writing, as provided by section 24, or the death of the nominee, or it may be a vacancy caused by the insufficiency of the certificate of nomination or the nomination papers. In the case assumed, no vacancy has been caused either by the death or declination of the nominee, nor was the certificate of nomination originally filed insufficient, but it was filed too late. It seems to us quite clear that said section 24 has no application to the case assumed by you.

We think it even more clear that said section 24 has no application to a case where the nominee seeks to file with you after the time prescribed by law for filing certificates of nomination, a certificate of nomination signed by the secretary and chairman of the congressional committee upon the theory that a vacancy exists, where the only basis for making a claim that a vacancy exists, is the fact that the nominee failed to file his certificate within the time prescribed by law.

No Use Tryin', Mr. Bryan.

The silver horn is tootin'—
Sure as shootin'.
And William J. is blowing, might and main.
He's an oratoric wizard,
Knows the art from A to Izzard,
With the queerest kind of logic in his brain.

Chorus:
But there's no use tryin',
Mr. Bryan;
For your're plainly on the wrong side of the fence;
All your silver oratory
And your gift of allegory
Cannot coin a dollar out of fifty cents.

He's a notion sort of funny
As to money—
All that's needed is to call a dollar two;
With the governmental fiat
And the people standing by it,
One and all can fill their pockets through and through.

Chorus:
But there's no use tryin',
Mr. Bryan;
For you're plainly on the wrong side of the fence;
All your silver oratory
And your gift of allegory
Cannot coin a dollar out of fifty cents.

By the same role of reason
It's in season
That the farmer sell his wheat at half its weight:
While the merchant justly pinches
Full a yard from eighteen inches—
Sure, we'll all be getting rich at such a rate.

Chorus:
But there's no use tryin',
Mr. Bryan;
For you're plainly on the wrong side of the fence;
All your silver oratory
And your gift of allegory
Cannot coin a dollar out of fifty cents.

Then, there's the man of labor—
He's our neighbor,
And we burn to see his weather-beaten brow—
He will work but half the hour,
Then recline in shady bower,
And at night will draw full wages—same as now.

Chorus:
But there's no use tryin',
Mr. Bryan;
For you're plainly on the wrong side of the fence;
All your silver oratory
And your gift of allegory
Cannot coin a dollar out of fifty cents.

So this silver agitation
And inflation
Goes a howling o'er the heather like a Hun;
Well, we'll let him whoop and holler
For his half-a-dollar dollar,
He can't hypnotize two voters out of one.

Chorus:
So, there's no use tryin',
Mr. Bryan;
For you're plainly on the wrong side of the fence;
All your silver oratory
And your gift of allegory
Cannot coin a dollar out of fifty cents.

BRYAN TO BE HERE ON FRIDAY, OCT. 30

BOY POPOCRAT IS TO TALK AT THE DEPOT.

Train Will Arrive In Janesville at 5:15 O'clock p. m. and Remain Half an Hour—Roster Rooster O'Connor to Speak This Evening at the Myers Grand.

William Jennings Bryan, the young man whose name is being used until November 3 in connection with the presidency, will make Janesville a visit next week. Chairman E. C. Wall, of the state central committee, today gave Janesville people notice of his coming. The special on which he travels will come from Green Bay on the Chicago & Northwestern, Friday afternoon, October 30, and will reach Janesville at 5:15. He will make a thirty minute speech from the train, and will go to Madison, where he addresses a meeting Friday night.

One of the "roster roosters" will speak at the Myers Grand tonight in the person of James L. O'Connor, who was attorney general at the time the "roster job" was attempted.

At that time the democratic party believed in free rosters—at the people's expense.

Now the same crowd—Peck, Wall, Dough, O'Connor et al., believe in free silver—at the people's expense.

The roster job was planned to enrich a favored few.

The free silver job engineered by the same crew of roosters, is planned so enrich the favored few also—the mine owners—at the people's expense.

Good democrats all over the state repudiated the roster roosters, and their scheme, the same as good democrats now repudiate their new job.

Let the roster roosters talk. They cannot make democratic votes. They make republican voters of all thinking men who hear them speak.

It is fitting that the roster roosters should be free silver men.

and compare the prices and quality with others and we are sure you will be convinced that we are doing business on the right principle and giving more for the money than any other shoe house in the city.

It Pays To Talk

about the Shoes you are thinking about buying before you use the words "I'll take that pair." It pays to talk about the leather that goes into the uppers, the soles, the heels, the counters, &c., the kind of thread they are sewed with, the linings, and all the details of the shoe.

We Know Something

about these matters and we talk them over with you so you can understand what you are buying. Customers relying wholly on their own judgment often make mistakes. The old saying "two heads are better than one one" is true in Shoe matters as well as in anything else. . . . .

While we are instructing you on how our Shoes are made we can also show you that our prices are more than right---that

We are giving Lower Prices

on high grade Shoes than can be obtained in any other shoe house in the city.

WE WANT THE LADIES' TRADE

and if high grade Shoes at lowest prices will bring you in you are sure to come. Of this we are mighty certain.

IN ACTIVE PRACTICE AT 93.

William Carpenter, the Oldest Lawyer at the New York Bar.

About the court house there are often seen two members of the bar of this city who are still in active practice although they have attained a green old age. These two men and many other members of the bar who are close to or beyond the seventh decade would give the idea that the practice of law tends to foster longevity or that it has not the septic influences which may tend to shorten life in some other walks of a busy world. There is an age limit, seventy years, for the judges, but there is no limit as to age for the members of the bar. So that while now and then a judge is obliged to leave the bench when his wisdom has been ripened by seventy years of experience there are members of the bar practicing away beyond that limit. The law seems to be a vocation to which men usually cling to the end. In many other callings men plan to retire when they have made their pile, but among the men who have retired from active business few lawyers are found. When a member of the bar does not feel like digging along in the active business of an attorney he devotes himself solely to counsel work or delegates the active attorney work to clerks or attorneys whom he employs. The value of the opinion of a lawyer who has kept at work is, as a rule, considered to increase with his years. Dickens speaks of a promising young lawyer of 40 years, indicating the length of the study of the science. With the modern codes, digests, and countless other reference books, there has been a great shortening of the time in which proficiency could formerly be attained, but there is still a marked demand for old heads. The oldest man at the bar of this city is William Cookson Carpenter, who was 93 years of age on July 30 last. He was in the county court house last week on a case. His eyes are bright and shrewd, and he might easily pass for 70. He was born in New Brunswick, and has been in practice in this city for sixty years. The other old member of the bar referred to is ex-Recorder James M. Smith. Mr. Smith has been engaged in the most difficult cases in the higher courts all his life, and has always been considered one of the most careful men in the preparation of a case and one of the best men before judge or jury at the bar. He is large and tall and walks still with a firm step. He has tried several cases in the last two years, but has not been about much during the last six months. He is reticent about his age, but it must be close on to 90. Lawyer Carpenter said to the writer that the ex-recorder, while not stating his age, had told him that he outdid him, and was in fact the oldest lawyer at the bar. Lawyer Carpenter added with conscious pride that he was sure that Mr. Smith's claim to be the oldest at the bar could not be sustained. It may be that Mr. Smith was only trying to take Mr. Carpenter down a peg.—New York Sun.

Eight Varieties on One Bush.

It is well known that California is the land of fruits and flowers, so it will not be a surprise to read about an immense rose bush in California which looks like an enormous bouquet. At the top on one side hang clusters of pure white roses. In the middle at the top are red roses, blooming in profusion. Pink roses hang in gay garlands at the top on the other side. All over the bush are branches of roses of other lines and colors. The delicate La France, the white Mme. Pianties, two varieties of Homer roses, the Pauline, Lebau, the Black Prince, the Castilian and the white Lamarque lend variety and attest their prolific blooms to the viruity of the stock upon which they were grafted. The owner of this rose bouquet is H. L. Barker, who is connected with the state bureau of mining. Once there were thirteen distinct varieties of roses on the bush, but the tea roses grafted on proved to be short-lived and only the hardier varieties have survived. There are enough now, right in all, to make the bush a curiosity. Mr. Barker's explanation is that he likes to experiment with plants and this rose bush is about 15 years old. Branch after branch has been grafted on. The original stock is the June or cabbage rose. The width at the top is not less than twenty-five feet and the height equals the width. There are many stocks or trunks springing from the roots. Carbon is plentifully supplied to intensify the color of the blossoms.—Troy Tribune.

Stopping a Great Ship.

The time required to arrest the motion of a ship and bring it to a standstill can be accurately determined by calculations. These calculations have been recently made for several well known ships. To stop the Etruria, whose displacement is 9,680 tons, horsepower 14,321 and speed 20.18 knots an hour, two minutes and forty-seven seconds are required, and during the process of stopping the ship will forge ahead 2,464 feet, or nearly one-half a mile. The United States cruiser Columbia, with a displacement of 7,350 tons, 17,991 horse-power and a speed of 22.8 knots, can be stopped in two minutes and fifteen seconds and within a space of 2,147 feet. The Cushing, United States navy, whose displacement is only 105 tons and horse-power 1,754, with a speed of 22.48 knots, can be stopped within a distance of 301 feet in 18.4 seconds. In each case the vessel is supposed to be going at full speed, and the stoppage produced by reversing the action of the propeller.—Pen and Press.

The Christian who worries much, prays too little.

THE pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend upon what he gets out of his food. This depends on his digestion. Constipation stops digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.
